GENERAL FACULTIES COUNCIL

By FOLIO Staff

The regular meeting of General Faculties Council on Monday, November 26, 1973 considered the following matters.

REPORT OF THE COMMITTEE ON STRESS

The Report of the General Faculties Council Committee on Stress was presented and tabled for discussion at a future special meeting. It was agreed that the report and the accompanying working document be sent to faculty councils and other interested groups for their comments.

DISCIPLINARY INVESTIGATION COMMITTEES

In January, 1972 Council approved a recommendation "that when complaints concerning academic behaviour of an individual, which cannot be resolved at the department or faculty level, are received, the Executive Committee be empowered to determine whether a *prima facie* case has been made, and if so, to instruct the Nominating Committee to set up an investigation committee; but if such a case is not made, to dismiss the complaints." An amendment to the original motion specified that such disciplinary investigation committees be joint committees reporting to Council and consisting of representatives of the Academic Staff Association executive and the General Faculties Council executive, and one representative of the Board of Governors.

A letter from the University's solicitor dated October 9, 1973 was read. It stated that "in our view General Faculties Council has in general no disciplinary jurisdiction over staff members . . . The kind of work proposed for the Disciplinary Investigation Committee . . . appears to us to fall within the jurisdiction assigned to the President."

Council therefore voted to rescind the original January 1972 motion establishing the committees.

INTERRUPTED TERM ON GENERAL FACULTIES COUNCIL

Council approved a motion that "an interrupted term shall be considered a completed term for membership on General Faculties Council and all its committees." An interruption was clarified as meaning a period of six months or longer.

CAMPUS SECURITY SERVICES POLICY COMMITTEE

In 1971 General Faculties Council established the Campus Security Services Policy Committee to consider matters of policy and administration of these services and, among other things, "to review and reformulate parking regulations." During the past summer it was ascertained by the University solicitors that the responsibility for making policy decisions on parking, traffic, and general security matters resides with the Board of Governors rather than with General Faculties Council.

Therefore Council agreed that it recommend to the Board of Governors that the Board establish an advisory committee on campus security services, with membership designated by Council and by the Board. It was also agreed that, if the Board agrees to this committee, then the existing Campus Security Services Policy Committee be abolished.

STUDENT MEMBERS OF GENERAL FACULTIES COUNCIL

General Faculties Council approved a motion recommended by Students' Council, that "student members of General Faculties Council must be registered in the faculty they purport to represent and that if, after election to General Faculties Council, a student member changes his faculty, he be required to resign from General Faculties Council."

COLLEGES COMMITTEE: REQUEST FOR AN ARTICULATION COUNCIL

Following a strong representation made by the General Faculties Council Colleges Committee at the November 14 Executive Committee meeting, Council agreed that the University of Alberta should communicate immediately with the Minister of Advanced Education recommending the establishment of an Articulation Council. A meeting between the universities and colleges has been arranged at the Department of Advanced Education on December 19 to discuss this matter.

In 1971 General Faculties Council had approved in principle the recommendation of a committee established by the Co-ordinating Council, that an Articulation Council be established to study the affiliation of private and public colleges with the Alberta universities. The Co-ordinating Council also approved this recommendation in principle, and forwarded it to the Universities

Commission then in existence. Since then, despite increasing difficulties concerning the relationship of the colleges with the universities and despite strong representation by the Co-ordinating Council to the government, there has been no evidence of any move towards implementing the recommendation and setting up an Articulation Council.

The chief purpose of an Articulation Council would be to establish more effective co-operation between the universities and the colleges in the interests of students involved in transfer between the two.

STAFF FILES

D. M. ROSS, Dean of Science, made a strong representation asking Council to rescind its decision (February 19, 1973) which supported the principle of open staff career files. His concern was that "meaningful references" from recognized scholars outside the University were virtually impossible to obtain if these references could not be treated confidentially.

It was decided that Council table further discussion of this issue until the next meeting when members of the original committee on staff files could be present to comment and when the views of other faculties on this question could be aired.

A CHRISTMAS PROJECT

Probably every department on campus has some way or other to celebrate Christmas every year.

This year, however, the seventy-odd people who work in the Comptroller's Office have decided to share their celebration with a needy Edmonton family, assigned to them by the Christmas Bureau.

"We asked them to assign us the biggest family they had on their lists," said MRS. CAROL WOOD, one of the organizers of the project, "and we got a family of seven boys and their parents." The Bureau supplies the names and ages of the children and the name of the social worker in charge of the family for further information.

The Comptroller's Office is putting together a giant Christmas hamper, with a turkey purchased from the office's gift fund and a long list of other food items and gifts for the

children, all of which will be supplied by individuals in the office.

When the idea came into the Publications Office as a FOLIO story, it was considered so worthwhile that the three small offices of Publications, Public Relations, and Fund Development decided to band together to "adopt" a family, this time a family of five children and their parents, for whom a large hamper of Christmas food, gifts, and other goodies will be made up.

Any other departments searching for something good to do with their Christmas cheer and interested in this particular project should telephone MRS. DOROTHY BETHEL at the Christmas Bureau, 424-0686.

UNIVERSITY WOMEN'S CLUB PUBLISHES HISTORY

As It Happened is the title of a booklet published by the University Women's Club telling the story of its first 60 years. Edited by MARJORIE W. BUCKLEY, the booklet is divided into six chapters each representing a decade and written by a member who was active in the club during the time of which she is writing.

Quotations from the Minutes convey the temper of the times, such as the concern in the thirties with the growth of facism abroad, unemployment at home, and the support of graduate women refugees. The club's involvement with the Canadian Federation of University Women is dealt with fully, especially the Triennial Conference held here in 1934. Then there are the recollections of socials and plays, lectures and concerts

enjoyed over the years, the whole illustrated with 22 photographs of past presidents, groups, and events.

The booklet is available from MRS. JEAN SAVILLE, 8919 117 Street, Edmonton, Alberta. T6G 1R8 at \$2 in Edmonton, or \$2.25 prepaid through the mail. The proceeds will go towards the Scholarship Fund.
